

Blended Learning at San Joaquin Schools

What is Blended Learning?

Blended learning is an educational option for students in grades 7-12 within Irvine Unified School District. Students complete coursework online, and attend one required in-person meeting per week for discussions, collaborative activities, and test proctoring.

The Highest Quality Educational Experience We Can Envision

Students enrolled in blended learning courses experience quality and rigor comparable to in-person courses, because blended learning courses are developed and taught by Irvine Unified School District teachers.

Adaptability by and for the Learner

Students in blended learning have flexible learning environments, and access to a variety of courses designed to meet their interests and needs.

Skills for College and Career

Students in blended learning will develop the skills to navigate college and career and adapt to our rapidly changing world.

Enrolling in a Blended Learning Course

Speak to your school counselor to obtain a referral if you are interested in the blended learning program. For more information, please visit our website.
